DIVISION OF
OIL, GAS & MINING

19 81 ANNUAL OPERATIONS AND PROGRESS REPORT

(To be filed for each Mining Operation
at the end of each calander year)

OPERATOR: Minerals Recovery Corp. MINE NAME: Sinbad
ADDRESS: 575 Union Blvd. #304 PERMIT NUMBER: ACT/015/030
Lakewood, CO 80228 SEC. 35 T. 22S R. 10E SLBM
REPRESENTATIVE: Dianna D. Evans DATE OF APPROVAL: _____

(1) Section 40-8-15 and Rule M-8 of the Utah Mined Land Reclamation Act,
require each operator to include with this report and up-dated map and
plan prepared in accordance with Rule M-3, providing a detailed status of
all mining and reclamation activities which have occurred during the past
year.

(2) The gross amount of materials moved during the year for this mining
operation was: 12,626 tons of ore mined, 33,625 tons of waste
which was stockpiles, and 9,521 tons of ore shipped off
the property.
The disposition of each type of material was: _____
see above.

(3) STATUS OF RECLAMATION WORK*

<u>Month</u>	<u>Number of Acres</u>	<u>Type of Work Performed</u>	<u>Results (Revegetation Success)</u>
January	_____	_____	_____
February	_____	_____	_____
March	_____	_____	_____
April	_____	_____	_____
May	_____	_____	_____
June	_____	_____	_____
July	_____	_____	_____
August	_____	_____	_____
September	_____	_____	_____
October	_____	_____	_____
November	_____	_____	_____
December	_____	_____	_____

*The monthly status of reclamation work should include such items as clean-up, regrading, recontouring, soil preparation, seeding, etc., and may be outlined on a separate sheet if necessary.

SEE ATTACHED, No map is attached, because the amount of surface area affected has changed. However, one is available if necessary.

Sinbad ACT/015/030

Reclamation with reference to the mining operations, has not begun as this mine is still in the production phase and expected to be "mined out" in late 1982, and hence any reclamation efforts would be fruitless in and around the portal area. There are approximately 150 holes drilled on the property gathered from over 10 years of various operators. MRC is working with the BLM out of Price, Utah and have begun to plug and reclaim these drill sites. A five foot cement plug is being used along with filling to surface with cuttings in each hole. This phase of reclamation began in October of 1981, and with the onset of winter, was temporarily postponed until spring of 1982. Revegetation of these drill holes has not taken place yet, however, is planned for 1982.
